## **Annexure-B referred to in paragraph 2(f) under the heading ‘Report on Other Legal and Regulatory Requirements’ of our report on even date on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013, (“the Act”)**

### **To the Members of Kirloskar Industries Limited**

We have audited the internal financial controls over financial reporting of Kirloskar Industries Limited (“the Company”), as of March 31, 2018, in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

### **Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### **Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing as specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

### NOTE 2: BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Financial Statements have been prepared in conformity with Generally Accepted Accounting Principles in India (Indian GAAP) to comply in all material respects with the notified Accounting Standards as prescribed under Section 133 of the Companies Act, 2013, (the Act), read with Rule 7 of the Companies (Accounts) Rules, 2014, the relevant provisions of the Act and the guidelines issued by Securities and Exchange Board of India (SEBI). The Financial Statements have been prepared under the historical cost convention on an accrual basis. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

#### Summary of Significant Accounting Policies

##### a. Use of Estimates

The preparation of Financial Statements in conformity with Indian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent liabilities at the end of the reporting period. The estimates and assumptions used in the accompanying Financial Statements are based upon management's evaluation of the relevant facts and circumstances as of the date of the Financial Statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying Financial Statements. Any revisions to accounting estimates are recognised prospectively in current and future periods.

##### b. Property, Plant and Equipment and Intangible Assets, Depreciation / Amortisation and Impairment of assets

###### I. Property, Plant and Equipment and Intangible Assets

Tangible Fixed Assets and Intangible Assets are stated at cost less accumulated depreciation / amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Management. It also includes the initial estimate of the costs of dismantling, removing the item and restoring the site on which it is located, where the Company has such contractual obligation.

###### II. Depreciation / Amortisation

Depreciation is provided on all assets (except land, being a non depreciable asset) equally over the useful life of the individual assets as prescribed under Part C of Schedule II to the Act. These lives also reflect the

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018**

management's estimate of the useful life of the respective fixed asset. Where cost of a part of the asset is significant to total cost of the asset and useful life of that part is different from the useful life of the remaining asset, useful life of that significant part is determined separately.

In case of windmills, useful life of 20 years (instead of 22 years as prescribed in Part C of Schedule II to the Act) has been estimated by the management of the Company for the purpose of charging depreciation on the basis of technical assessment by independent external expert.

Dismantling and restoration cost is depreciated over remaining useful life of Windmill.

In case of vehicles, useful life of 5 years (instead of 8 years as prescribed in Part C of Schedule II to the Act) has been estimated by the management of the Company for the purpose of charging depreciation as per the terms of Company Policy.

Computer software recognised as intangible asset is amortised over an estimated useful life of 5 years.

All fixed assets individually costing ₹ 5,000 or less are fully depreciated in the year of installation.

Depreciation is recognised in the Statement of Profit and Loss from the month in which the asset is acquired while the depreciation on assets sold during the year is recognised in the Statement of Profit and Loss till the month prior to the month in which the asset is sold.

**III. Impairment of assets**

At each balance sheet date, based on internal / external factors, if there is any indication of impairment, the carrying amount of assets is reviewed. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the, net selling price and value of the assets in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

**c. Inventories**

Inventories in the nature of Renewable Energy Certificates (RECs) are accounted for in accordance with the Guidance Note on Accounting for Self-Generated Certified Emission Reductions issued by the Institute of Chartered Accountants of India. Accordingly, the RECs are recognised upon application for certification to the respective authorities till such units are sold, and valued at lower of cost and net realisable value. Cost comprises of costs incurred for certification of RECs. Net realisable value of RECs is the estimated selling price in the ordinary course of business.

**d. Investments**

Investments intended to be held for not more than a year are classified as 'Current Investments'. Current Investments are carried at lower of cost and fair value determined on an individual investment basis.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018

All other investments are classified as 'Long term investments'. Long term investments are carried at cost. However, provision for diminution in value is made to recognise a decline, other than temporary, in the value of the investments.

On disposal of an investment, the difference between its weighted average carrying amount and the net disposal proceeds is charged or credited to the Statement of Profit and Loss.

### Investment Property

An investment in land or buildings that are not intended to be occupied substantially for use by, or in the operations of the Company is classified as investment property. Investment properties are stated at cost less accumulated depreciation / amortisation and impairment losses, if any.

Cost comprises the purchase price and any attributable cost of bringing the investment property to its working condition for its intended use.

Depreciation on the building component of the investment property is calculated on the basis of the management's estimate of the useful lives of the respective investment property and is equal to the corresponding useful lives prescribed in Schedule II of the Act.

On disposal of an investment property, the difference between its carrying amount and the net disposal proceeds is charged or credited to the Statement of Profit and Loss.

### e. Employee Benefits

#### I. Provident Fund and Superannuation Scheme

The eligible employees of the Company are entitled to receive benefits under the Provident Fund and Superannuation Scheme, which are defined contribution plans. In case of Provident Fund, both the employee and the Company contribute monthly at a stipulated rate to the government provident fund, while in case of superannuation, the Company contributes to Life Insurance Corporation of India at a stipulated rate. The Company has no liability for future Provident Fund or Superannuation benefits other than its annual contributions which are recognised as an expense in the year on an accrual basis.

#### II. Gratuity

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated years mentioned under 'The Payment of Gratuity Act, 1972'. The Company accounts for liability of future gratuity benefits based on an external actuarial valuation on 'Projected Unit Credit Method' carried out for assessing liability as at the reporting date.

Actuarial gains / losses are immediately taken to Statement of Profit and Loss and are not deferred.

#### III. Leave Encashment

Long term and Short term compensated absences are provided for based on actuarial valuation. The actuarial valuation is done as per 'Projected Unit Credit Method' as at the reporting date.

Actuarial gains / losses are immediately taken to Statement of Profit and Loss and are not deferred.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018****IV. Employee Stock Option Plan**

Employees of the Company receive remuneration in the form of shared based payment transactions, whereby employees render services as consideration for equity instruments granted (Equity settled transactions).

In accordance with the guidance note on Accounting for Employee share-based payments issued by the Institute of Chartered Accountants of India, the cost of equity settled transactions is determined by the Fair Value of the options at the date of the grant and recognised as an employee compensation cost over the vesting period. The cumulative expense recognised for each equity settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The compensation expenses are amortised over the vesting period of the options on straight line basis.

**f. Revenue Recognition**

- I. Income from power generation is recognised on supply of power to the grid and recognised in accordance with the terms and conditions of the contract with the Open Access Consumer.

The unutilised units by the Open Access Consumer are initially recognised at a rate which is estimated on the basis of latest available rates as per MSEDCL circulars / orders. The same are subsequently billed upon determination of the billable rate / units after verification by MSEDCL in accordance with the Rules and Regulations. The difference between the initial accrual and final billing is adjusted with the revenue of the year in which the billing is done.

- II. Income from the sale of Renewable Energy Certificates (RECs) is recognised on an accrual basis at the time when the contract to sale is entered.
- III. Income from property licensing is recognised as rentals, as accrued over the period of the Leave and License Agreements.
- IV. Dividend is recognised as income when right to receive it is established.
- V. Interest on fixed deposits with banks, debentures, bonds, etc. is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable. In case of significant uncertainty of receiving interest, the same is not recognised though accrued and is recognised only when received.
- VI. Profit / Loss on the sale / redemption of investments is dealt with at the time of actual sale / redemption.

**g. Expenditure on Corporate Social Responsibility Activities (CSR Activities)**

The expenditure on CSR activities is recognised in the Statement of Profit and Loss upon utilisation by the Trust / NGO to which the funding is made by the Company. The expenditure on CSR activities conducted by the Company is recognised in the Statement of Profit and Loss, on an accrual basis as and when the activities are undertaken.

**h. Income Tax**

- I. Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018

- II. Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted, at the reporting date.

Deferred tax liabilities are recognised for all taxable timing differences. Deferred tax assets are recognised for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

In the situations where the Company is entitled to a tax holiday under the Income Tax Act, 1961, no deferred tax (asset or liability) is recognised in respect of timing differences which originate and are likely to reverse during the tax holiday period. Deferred tax in respect of timing differences which reverse after the tax holiday period is recognised in the year in which the timing differences originate. For recognition of deferred taxes, the timing differences which originate first are considered to reverse first.

At each reporting date, the Company re-assesses unrecognised deferred tax assets of the earlier years. It recognises unrecognised deferred tax asset to the extent that it has become reasonably or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised. Based on the reassessment, the asset of deferred tax is then restated by crediting to the Statement of Profit and Loss.

The carrying amount of deferred tax assets are reviewed at each reporting date. The Company writes down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

- III. Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The Company recognises MAT credit available as an asset only to the extent that it is reasonably certain that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on 'Accounting for Credit Available in respect of Minimum Alternative Tax under the Income Tax Act, 1961', issued by the Institute of Chartered Accountants of India, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have reasonable certainty that it will pay normal tax during the specified period.

### i. Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018****j. Cash Flow Statement**

Cash and Cash Equivalents in the Cash Flow Statement comprise cash at bank and in hand, cheques on hand, remittances in transit and short term investments with an original maturity of three months or less.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018

### n. Provisions

A provision is recognised when the Company has a present obligation as a result of past event; it is probable that outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value except in case of decommissioning, restoration and similar liabilities that are recognised as cost of Property, Plant and Equipment. The discount rate used is a pre-tax rate that reflect(s) current market assessments of the time value of money and the risks specific to the liability. Periodic unwinding of discount is recognised in the Statement of Profit and Loss.

Provisions are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

### o. Contingent Liability

A contingent liability is a possible obligation that arises from past events and the existence of which will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or present obligation that arises from past events that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. The contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the Financial Statements.

#### Fair value of the options granted:

The Company has recorded employee stock-based compensation expense relating to the options granted to the employees on the basis of fair value of options.

The fair value of the options granted is mentioned below as per vesting period. The fair value of the options is determined using Black-Scholes-Merton model which takes into account the exercise price, the term of the option (time to maturity), the share price as at the grant date and expected price volatility (standard deviation) of the underlying share, the expected dividend yield and risk-free interest rate for the term of the option.

**NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018**

Fair value and assumptions for the equity-settled grant made on 1 November 2017.

Grant ESOP 2017	Vesting dates		
	1 November 2018	1 November 2019	1 November 2020
Grant Date: 1 November 2017 Exercise price - ₹ 900			
Fair value of option	668.29	706.35	748.82
<b>Input variables :</b>			
Share price as on grant date	1,499.85	1,499.85	1,499.85
Standard deviation (Volatility)	43.46%	41.57%	43.21%
Risk-free rate	6.45%	6.52%	6.58%
Time to maturity	1.50	2.50	3.50
Dividend yield	2.52%	2.52%	2.52%

**Rationale for the variables used**

The variables used for calculating the fair values and their rationale are as follows:

**A. Stock price**

The latest available closing market price on the National Stock Exchange of India Limited (NSE) prior to date on which options are granted has been considered for the purpose of valuation.

Under the ESOP Scheme of the Company, one option entitles an employee to one equity share of the Company.

**B. Volatility**

Volatility is a measure of the amount by which a price has fluctuated or is expected to fluctuate during a period. The measure of volatility used in the Black-Scholes-Merton option pricing model is the annualised standard deviation of the continuously compounded rates of return on the stock over a period of time.

The period to be considered for volatility must be adequate to represent a consistent trend in the price movements. It is also important that movements due to abnormal events get evened out. The guidance note on "Accounting for Employees Share-based Payments" issued by the Institute of Chartered Accountants of India recommends the historical volatility of the stock over the most recent period that is generally commensurate with the expected life of the option being valued. Accordingly, we have considered volatility over the expected life of the option.

The fair value is very sensitive to this variable. Higher the volatility, higher is the fair value.

The rationale being, the more volatile a stock is, the more is its potential to go up (or come down), and the more is the probability to gain from the movement in the price. Accordingly, an option to buy a highly volatile stock is more valuable than the one to buy a less volatile stock, for the probability of gaining is lesser in the later case.

**C. Risk free interest rate**

The risk-free interest rate being considered for the calculation is the interest rate applicable for maturity approximately equal to the expected life of the options based on the zero-coupon yield curve for government securities.

## NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2018

### D. Exercise price

The Company considered the exercise price of the options granted to employees based on the Plan.

### E. Time to maturity / expected life of options

Time to maturity / expected life of options is the period from the grant date to the date on which option is expected to be exercised. The minimum life of stock option is the minimum period before which the options cannot be exercised and maximum life is the period after which the options cannot be exercised.

The expected life of an award of stock options considers the following factors:

- i. The expected life must at least include the vesting period.
- ii. The average lengths of time of similar grants have remained outstanding in the past. If the Company does not have sufficiently long history of stock option grants, the experience of an appropriately comparable peer group has been taken into consideration.
- iii. The expected life of stock options should not be less than half of the exercise period of the stock options issued until and unless the same is supported by historical evidences with respect to stock options issued by the Company earlier.

The fair value of each award has been determined based on different expected lives of the options that vest each year, as if the award were several separate awards, each with a different vesting date.

The time to maturity has been estimated as illustrated by the following example. In case of the options granted on 1 April 2017, the earliest date of exercise for the first vesting is one year from the date of grant that is 1 April 2018. Hence, the minimum life of the option is 1 year. The exercise period is one year from the date of vesting as per the ESOP scheme; hence the maximum life is 2 years. The expected life is the average of minimum and maximum life, i.e. 1.5 years  $[(1 + 2) / 2]$ . The time to maturity for the remaining vests has been calculated in a similar manner.

### F. Expected dividend yield:

Expected dividend yield is dividend per share divided by market price per share.

The Expected dividend yield of the Company over the life of the option is estimated considering the Company's past dividend policy.

### Employee-benefit expenses to be recognised in the Standalone Financial Statements

The Company has recorded employee stock-based compensation expense of ₹ 490.18 Lakhs in the Statement of Profit and Loss relating to the options granted to the employees of the Company for the year ended 31 March 2018.

## **‘Annexure 1’ to the Independent Auditor’s Report of Even Date on the Consolidated Financial Statements of Kirloskar Industries Limited**

**Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013, (“the Act”)**

**To,**

**The Members of Kirloskar Industries Limited**

In conjunction with our audit of the Consolidated Financial Statements of Kirloskar Industries Limited as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of Kirloskar Industries Limited (hereinafter referred to as the “Holding Company”) and its subsidiary as of that date.

### **Management’s Responsibility for Internal Financial Controls**

The respective Board of Directors of the Holding Company and its subsidiary are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### **Auditor’s Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing as specified under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with Generally Accepted Accounting Principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with Generally Accepted Accounting Principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely

detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Holding Company and its subsidiary have maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Other Matters**

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding Company, in so far as it relates to the subsidiary is based on the corresponding report of the auditor of such subsidiary.

Our opinion has not been modified in respect of the above matter.
